(tablecloths, and napkins)

**POLY/COTTON\***

(tablecloths, runners, placemats, overlays, and table toppers)

**Solana**

Laundering before use is recommended. To wash:

Machine wash at 2/3 of the load capacity with water temperature between 140°-160°F (60°-71°C). Use non-ionic/solvent combination detergent or equivalent. Washing cycle time of 10-20 minutes. To dry, load machine to 1/2 load capacity. Use permanent press cycle. Allow cool down cycle time of at least 3-4 minutes. Remove immediately. Place on flat table, fold and place on hanger.

\*Marko recommends washing Poly/Cotton table linens in water temperature between 60°-80°F (16°-27°C) to minimize shrinking.

*CARE INSTRUCTIONS FOR THE FOLLOWING:***VINYL PRODUCTS**

(tablecloths, runners, overlays, table toppers, aprons, placemats, table padding, and double polished clear vinyl)

**Expressions™ Series, Designer™ Series, Fashion™ Series, Classic™ Series, Textile Design Collection™, Squaredance Picnic, Cafe, Diner, Solid, Graph Paper, Connect The Dots, Speedway, Check it Out, Trellis, Starlet, Diamond Back**

Clean with soapy water and damp cloth or sponge, then wipe off with dry cotton cloth. To remove a stain, gently rub with a mild non-abrasive cleaner and wipe down with soft sponge. For stains that have set, apply bleach to a paper towel and place over the stain for two minutes. Wipe down with sponge. If the stain persists, leave the towel on the stain overnight. Vinyl products are NOT machine washable.

**CONSULT THE EXPERTS!**

The instructions shown above are general guidelines to help you care for your linens. For specific formulations, you should consult your laundry equipment supplier or the supplier of your washing chemicals.
